Hello, everyone. Welcome to September. I'm happy to welcome another group of new subscribers to the Newsletter this month. I look forward to receiving any submissions you may have for the Newsletter in the months ahead.

September and October are busy months for amateur radio fleamarkets. I will be attending three events in September and one in October, throughout Quebec and eastern Ontario. I look forward to seeing many of you at these events. Please drop by the Radio HF exhibit and say hello. Details of upcoming hamfests in Canada appear each month in the Hamfest/Fleamarket Zone of the Newsletter.

In this month's Newsletter, the Monthly Special Zone for September features websites about POW/MIA Recognition Day, Rosh Hashanah, Yom Kippur, World Maritime Day, International Ozone Layer Preservation Day and Banned Book Week.

UNITED NATIONS INTERNATIONAL OZONE LAYER PRESERVATION DAY

http://www.uneptie.org/ozonaction/events/20thanniversary.htm

September 16th will mark the 20th anniversary of the signing of the
Montreal Protocol, the landmark international treaty to protect the
stratospheric ozone layer. To date, 191 countries have signed the
Protocol, which prompts countries to phase out the production and
consumption of ozone depleting chemicals. The Montreal Protocol has
been hailed as perhaps the most successful international treaty to
date and provides a message of hope for working cooperatively to
solve major environmental problems.

The city of Montreal, Canada, where the Protocol was first signed, will host the 20th anniversary of this multilateral environmental agreement. For further information, http://www.ec.gc.ca/default.asp?lang=En&xml=AB3B558A-48EF-4E3B-83FA-BDAA2B7D76AF

HEIL SOUND PRODUCTS

Heil Sound entered the amateur radio market to fix a problem, poor transmitted and received audio. So, Bob Heil applied the science of audio that he learned from the likes of Paul Klipsch, Don Leslie, Martin Wick and studying the Bell Labs Fletcher Munson curves. He developed his HC series microphones which brought maximum articulation to amateur radio communication. The goal of Heil Sound is still; to hear the world better and to improve communication.

Heil Sound offers high quality microphones, headsets and related accessories for the amateur radio community. To see Heil's amateur radio products, please visit their webpage at:

http://www.heilsound.com/amateur/index.htm

Heil products are available from Radio HF.

RADIO DAYS

http://www.otr.com/index.shtml

VIA Sheldon Harvey, Greenfield Park, Quebec

This site bills itself as a soundbite history of radio with features on historic radio broadcasters and broadcasts, mystery, private eye, comedy and science fiction radio programmes.

TOPIX RADIO NEWS

http://www.topix.net/business/radio

VIA Sheldon Harvey, Greenfield Park, Quebec

Topix is the leading news community on the Web, connecting people to the information and discussions that matter to them. This section deals with the business of radio.

UNITED NATIONS RADIO

http://radio.un.org/

VIA Sheldon Harvey, Greenfield Park, Quebec

Listen to international programming on-line produced and presented by the United Nations. From the site you can also learn about the various UN radio stations broadcasting around the world as a part of their peacekeeping missions.

SNAP FM

http://www.snapfm.com/

VIA Sheldon Harvey, Greenfield Park, Quebec

A pair of New Jersey entrepreneurs has created a website that aggregates radio stations webcasts, and makes it easier for consumers to listen to radio online. Adam Savage and Dennis Patti say "Our goal was to create a simple Internet radio website that would allow people to listen live to AM and FM stations from across the nation." Unlike other sites, it's free and only features terrestrial radio stations. You can choose stations by location, or by style of music. SnapFM.com has just launched and plans to begin a national ad campaign.

HAM RADIO NEWS CENTER

http://hamnews.k1dwu.net/

VIA Sheldon Harvey, Greenfield Park, Quebec

This collection of ham radio newsletter and related articles from around the world is also the home of Ham-Links, a collection of over 4500 Ham Radio sites verified every week.

THE GENERAL ZONE

THE PANAMA CANAL AUTHORITY

http://www.pancanal.com

VIA Sheldon Harvey, Greenfield Park, Quebec

This page introduces one of the most well known waterways of the world. The first ever expansion of the canal is now underway. The site also features live cameras showing operations at the Miraflores and Gatun Locks, as well as other points of interest in the Canal like the recently Centennial Bridge.

ATLAS OF THE UNIVERSE

http://www.atlasoftheuniverse.com/

VIA Elmer Standish, Courtenay, British Columbia

This web page is designed to give everyone an idea of what our universe actually looks like. There are nine main maps, each one approximately ten times the scale of the previous one. The first map shows the nearest stars and then the other maps slowly expand out until we have reached the scale of the entire visible universe.

BROKEN ARROW

http://www.supsalv.org/pdf/FACEPLATESept06.pdf

VIA Jerry Proc, Toronto, Ontario

2007 marks the 41st anniversary of the "Broken Arrow Incident at Palomares, Spain in which a mid-air collision between a B-52 bomber and a KC-135 tanker triggered the release of four hydrogen bombs. Three fell on land while one fell into the sea. The story which appears in the September 2006 issue of FACEPLATE, page 15, chronicles the events surrounding the search and retrieval of the lost weapon.

CASTLES OF THE WORLD

http://www.castles.org/

VIA Elmer Standish, Courtenay, British Columbia

This site is a Showcase of Castles from Around the World.

ETERNAL SUNSET

http://www.eternalsunset.net/

VIA Elmer Standish, Courtenay, British Columbia

Eternal Sunset endeavours to ensure you can enjoy the sunset live from any location, at any time. As the sunset moves westward, Eternal Sunset continuously tunes into different webcams, chasing the sunset around the globe. This service is currently provided through the use of 225 west-facing webcams across 45 countries.

FORGOTTEN NY-THE INFRASTRUCTURE OF A LOST METROPOLIS

http://www.forgotten-ny.com/

VIA Elmer Standish, Courtenay, British Columbia

This site is your gateway to a New York City that existed long ago and still exists, in a hidden form, today. You will see remnants of a NYC of long ago, as well as unusual scenes not ordinarily associated with New York. The site has photo essays of abandoned buildings, closed off subway stations, old signs, cobblestone streets, cemeteries and more. Quite interesting.

FLAGS OF THE WORLD

http://www.crwflags.com/fotw/flags/

VIA Elmer Standish, Courtenay, British Columbia

Flags of the World (FOTW) is the Internet's largest site devoted to vexillology (the study of flags). Here you can read more than 34,000 pages about flags and view more than 65,000 images of flags.

WHAT'S NEW IN BOOKS & PUBLICATIONS FROM THE AMERICAN RADIO RELAY

LEAGUE, THE RADIO SOCIETY OF GREAT BRITAIN, and other publishers?

ANTENNA COMPENDIUM VOLUME 4

More antennas--ideas and practical projects! Hams just love antennas...and they love to read about them, and write about them! This is the fourth in the popular ARRL Antenna Compendium series. You'll find 38 articles inside, covering a wide range of topics. There are simple, practical antenna projects, and there are heavy-duty, theoretical treatments of complex arrays.
The original edition of The ARRL Antenna Compendium Volume 4 included a 3.5-inch diskette with data files and software applications. Many of the articles contained within this book make reference to these files and programs. The software diskette is not included in this printing, because most of the programs will now longer function on modern computers.

PICTURES OF PENNIES

http://www.fincher.org/Misc/Pennies/index.shtml

VIA Elmer Standish, Courtenay, British Columbia

I'm Mitch Fincher and these pages are from a talk I gave while a Civil Engineering student at Texas Tech University. The following is the basic pattern for building cantilevered structures with Pennies. Although it looks trivial, we can build amazing structures with these pillars. All penny columns are ten high, a "stack". Two side-by-side pennies held in place by a penny above them are called a "triad".
